

Terms of Use for Canva Templates:

What you CAN do:

- * You CAN share your downloaded Canva images on social media, your blog, in emails, or in other public forums
- * You CAN add your logo or url to the image
- * You CAN edit the text on the image
- * You CAN copy the template, edit it, rebrand it, and share with your followers

What you can NOT do:

- * You can NOT extract the actual photos or elements from the templates and use those elsewhere
- * You can NOT claim any kind of copyright to the templates or elements in them
- * You can NOT sell the templates individually or as a bundle

NOTE: While the images and elements we use are all from Canva's platform, it's always best to assume that you do not have any kind of commercial license to use these images. When in doubt check the terms of use for your Canva account. You may need to purchase premium elements for commercial use.
