Expectations

Before we start the course, take a minute to think about what you want to get out of it.

In the Action Guide, write down three skills you expect to gain.

Now that you're clear about what you want this course to deliver, we can get started.

Module 1 - Start with the Essentials for a Valuable Email List

Your email list is the most important asset in your business and is critical to building and nurturing relationships with your audience. It is your way of keeping in touch with your prospects, customers, clients, and other people you serve.

Your followers are interested in your work and want to know more about what you have to offer. With an email list, you can communicate with your prospects and customers directly, sending them the information they want. The valuable content you send to your subscribers then establishes the know/like/trust factor that is so crucial to growing a loyal following of people who buy what you recommend.

Since email marketing costs are low or even free, you don't need to make a huge investment to get started. Some people begin with friends and family on a list but you can do much better than that. In this module you'll learn the key steps you must take to build your list from scratch, and you'll set realistic goals for your list building, so you make sure and steady progress.

What is an Email List?

Think of an email list as your virtual contact list. It's a collection of names and information about people who have subscribed to your list. It is especially important because you have ready access to the information about each subscriber. However, it's important to use the information only for the purposes you state when asking for that information. This is to

protect people's privacy. Never pass on the data you collect about your subscribers to others. You should feel privileged that people have chosen to share their contact information with you so make sure you look after it.

Why Email Marketing?

Email marketing is still one of the best ways to market and grow your business. Your audience is the people who are interested in what you have to say and how you can help them. Email marketing is your way to communicate with them.

Here are a few key reasons to use email marketing in your business:
